INSTRUCTIONS TO BIDDERS - BIDDERS MUST COMPLY WITH ALL INSTRUCTIONS AS OUTLINED

IMMEDIATE CAUSE FOR REJECTION OF BID

A. Failure to comply with all instructions or to sign all necessary forms including the Request for Bid (RFB) form.
B. Failure to submit a bid surety completely and correctly executed at the time of bid submission in the correct amount (if required).
C. Failure to correctly and completely execute the non-collusion affidavit (if required).
D. Failure to comply with any other mandatory bid requirements.

BONDING REQUIREMENTS

A. Bidders may be required to provide with a bid, at time of submission, a bid surety in either a flat dollar amount or percentage of bid, as specified. Acceptable forms of bid surety as follows:
   1. Bid Bond secured from a bona fide bid surety firm.
   2. A Certified Check (or equivalent) if issued by a financial institution insured by an agency of the United States.
   3. Other Forms of Bid Surety as specified in a particular bid.

   All forms of Bid Surety should be made payable to the City of Indianapolis/Marion County. No cash or personal checks accepted. All bid surety will be held until formal award is made by the appropriate governing body and until successful vendor complies with all terms of the award.
B. Successful bidder may be requested to provide a Performance Bond/Payment Bond in either a flat dollar amount or a percentage of bid as specified, made payable to the City of Indianapolis/Marion County, within ten days after receipt of award letter. Other forms of performance guarantee may be acceptable as specified in a particular bid.

GENERAL CONDITIONS/CONTRACTUAL CLAUSES

A. The City of Indianapolis and Marion County are exempt from Local, State and Federal Taxes and will not be responsible for any taxes levied on vendor as a result of a bid award.
B. All terms contained in this document will become part of contract between successful bidder and the City of Indianapolis/Marion County unless bidder takes exception.
C. The City of Indianapolis and Marion County reserve the right to reject any and all bids and to waive any of the terms and conditions and provisions contained in the Invitation to Bid or other documents, or any informality, irregularity or omission in any bid, and to award to one or more bidders.
D. Bidders may be required to submit City of Indianapolis/Marion County Form #102 (Financial Statement) for non-construction (non-public works) bids, if specified in a particular bid's technical specifications. Bidders may also be required to submit Form #102 for each construction (public works) bid under $100,000.00, if specified in a particular bid's technical specifications.
E. Telegraphic/Facsimile bids are not acceptable unless specified.
F. Manufacturer and/or model number of equipment being bid must be stated.
G. If not bidding a delivered price to point of destination, shipping charges must be shown as a separate price on the RFB form.
H. Upon delivery and/or inspection of ordered goods or upon performance of services, should the ordering agency determine that goods/services do not meet specifications, same will not be accepted and shall be returned at vendor's expense.
I. Reference to brand names, catalogue numbers etc., are made to establish level of quality needed and not for the purpose of limiting competition. It is the vendor's responsibility to show proof that goods being offered are of equal quality to those that were specified.
J. Formal contracts and/or proof of insurability may be required on applicable bids for construction and/or service projects.
K. The City of Indianapolis/Marion County reserves the right to deny payment to vendors ordering or delivering goods/services without benefit of a verbal or written purchase order number.
L. Any exceptions to the specifications must be clearly set forth in vendor's bid.
M. All bidders must comply with Consolidated City of Indianapolis Mayor's Execution Order #1, 1987. The apparent low bidder must submit or have on file form CC-09 which may be obtained from the DMWBD office. Failure to do so will cause your bid to be rejected. Information pertaining to the DMWBD Program and/or any questions should be directed to: The Department of Minority and Women Business Development, 200 E. Washington St., Suite 1501, Indpls., IN 46204, (317) 327-5262.
N. The Vendor agrees to indemnify and hold harmless Marion County, Indiana, the City of Indianapolis and its officers, agents, officials, and employees for any and all claims, actions, causes of action, judgments, and liens arising out of any negligent act of omission by the Vendor or any of its officers, agents, employees, or subcontractors or any defect in materials or workmanship or any supply, material, mechanism or other product which it or any of its officers, agents, employees, or subcontractors has supplied to the City/County or has used in connection with this Agreement. Such indemnity shall include attorney's fees, costs and other expenses arising therefrom or incurred in connection therewith and shall not be limited by reason of the enumeration of any insurance coverage required herein.
O. Notwithstanding any other provision of this Agreement, if funds for the continued fulfillment of this Agreement by City/County are at any time not forthcoming or are insufficient, through failure of any entity to appropriate funds or otherwise, then City/County shall have the right to terminate this agreement without penalty by giving prior written notice documenting the lack of funds, in which instance, unless otherwise agreed to by the parties, this Agreement shall terminate and become null and void on the last day of the fiscal period for which appropriations were received. City/County agrees that it will make its best effort to obtain sufficient funds, including but not limited, to including in its budget for each fiscal period during the term hereof a request for sufficient funds to meet its obligations hereunder in full. This contract may be terminated by either party at City's option, upon 30 days written notice.
P. No portion of this Agreement shall be sublet, assigned or otherwise disposed of by Vendor except with the written consent of the City/County being first obtained. Consent to sublet, assign or otherwise dispose of any portion of this Agreement shall not be construed to relieve Vendor of any responsibility for the fulfillment of the Agreement.
Q. Unless otherwise specified within the Agreement, this Agreement shall be governed by the laws of the State of Indiana, and by all Municipal Ordinances and Codes of the Consolidated City of Indianapolis, as the same shall be in full force and effect upon the date this Agreement is executed.
R. This Agreement represents the entire and integrated Agreement between City/County and Vendor and supersedes all prior negotiations, representations, agreements, and/or contracts, either written or oral. This Agreement may be amended only by written instrument signed by both City/County and Vendor and attached hereto as an addendum.

AFFIDAVIT OF NON-COLLUSION

THE UNDERSIGNED, HAVING BID FOR All Purpose Batteries RFP:ITB0007393 in accordance with notice given by the Purchasing Division and the City of Indianapolis and/or Marion County for such supplies, merchandise, service or contract for and in behalf of himself, or themselves, being first duly sworn says:

That said bidder has not directly or indirectly entered into any combination, collusion, undertaking or agreement relative to the price to be bid by any person, or to prevent any bidder, or bidders, from bidding, or to induce any bidder, or bidders, to refrain from bidding for such supplies, merchandise, service or contract, and that said bid so made is without reference or regard to any other bid, or bids, and without agreement, understanding or combination, either directly or indirectly, with any person or persons, with reference to such bidding in any way or manner whatsoever.

City of Indianapolis
Invitation to Bid on a Term Agreement to Provide
All – Purpose Batteries

The following terms will be included in the resulting agreement between the successful vendor and the City of Indianapolis (City). Please read carefully. **Questions pertaining to the technical specifications and quoting documents may be directed to Mr. David Condon, Purchasing Division, in writing either by e-mail to dcondon@indy.gov or fax (317) 327-4493, no later than one (1) week prior to due date.**

1.0 General

Vendors are invited to quote unit prices for All-Purpose Batteries to be furnished and delivered to all City and County agencies.

PLEASE NOTE: Any addenda related to this project, including written answers to questions, will be posted on the Purchasing Division's official website at www.indy.gov/purch under the appropriate project heading. Addenda will NOT be sent directly to vendors. Vendors will be responsible for periodically checking this website for any related addenda up to and including the proposal due date. Vendors should print out, sign and return the written acknowledgement(s) with their proposal.

2.0 Term Contract

This Invitation to Quote is to establish one or more *term contracts* for these items. No guaranteed minimum or maximum purchase quantities are either stated or implied. The quantities listed are estimates only based on past history or department survey, and the City may purchase substantially more or less than the amounts shown. All orders shall be on an "as needed" basis.

3.0 Term of the Resulting Contract

The term of the initial contract shall be **two (2) years**, effective from date of award letter.

4.0 Split Awards

The City may award a contract to a vendor who submits the overall lowest, responsive and responsible quote, or, it may split the award between two or more vendors, all to the advantage of the City. For purposes of evaluation, a split between two or more vendors will not be considered to be to the advantage of the City if increased administrative costs offset any projected cost savings realized by splitting the award.

5.0 Firm Quotes

All quotes received shall be considered valid for not less than ninety (90) days from the date of quote opening. Pricing shall be firm for the length of the contract, including any renewals.

6.0 Literature

Please submit official manufacturer's literature regarding all items offered with the quote.

7.0 Bonds

There will be no *bid bonds* or *performance bonds* required for this contract.

8.0 Specifications

The specifications are intended to provide a foundation for open competition for the supply of commodities or services to meet City needs. Minor and immaterial technical deviations may, at the discretion of the City, be deemed in *substantial* compliance with the specifications. However, material variances may render the vendor *non-responsive* and ineligible for award. Unless specified as "No Exceptions" the use of brand names, models, etc. serves to establish the design, performance and level of quality needed and not to restrict competition. (Items that are equal in design, performance and quality will be considered.) The right to evaluate specification compliance and equality is reserved to the City, and the vendor shall have the burden of proof to demonstrate that any proposed substitutes are equal. Vendor shall note the manufacturer/model # of any substitutes, or the reference brand(s) will be assumed. All exceptions to the specifications and terms shall be noted in detail on the attached *Exception Sheet.*

9.0 Delivery

Unless otherwise agreed to by the requesting location, delivery shall be within **two (2) business days** after receipt of a valid order. All deliveries shall be made Monday through Friday during normal business hours (official holidays excluded) unless other prior arrangements are made. Vendor shall adhere to any other delivery policies (e.g. notification, etc.) as may be required by the department or agency.

10.0 Freight Terms

The City requests "delivered pricing"(FOB Destination, Freight Prepaid & Allowed) for this particular contract, and shipping charges should therefore be included in the vendor's unit price. No other charges will be allowed. All items will be shipped and protected in transit per industry standards.

11.0 No Handling Charges

If, for any reason, the City rejects items supplied by the vendor, the City shall not be responsible for any shipping and handling, restocking, or similar charges incurred by Contractor.

12.0 Contract Termination

The City may terminate the resulting contract for cause or convenience at any time during the term of the contract, without penalty, upon thirty (30) calendar day's written notice to the vendor. The City will be the sole judge of the adequacy of the vendor's performance pursuant to this contract.

13.0 Debarment and Suspension

Vendors should be aware that by entering into an agreement with the City, they, nor their principals, should be presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from entering into this agreement by any federal agency or by any department, agency or political subdivision of the State of Indiana. The term "principals", as used in this paragraph, means an officer, director, owner, partner, key employee, or other person with primary management or supervisory responsibilities, or a person who has critical influence on or substantive control over the operations of the vendor's business.

The awarded vendor shall **not** have their business name(s) or principal's name(s) listed on the debarment web site at http://www.epls.gov/epls/search.do . A check of this listing will be made by the City. The City of Indianapolis reserves the right to nullify the award of any quote, bid, or RFP based on this listing. It is recommended that vendors check the website listing prior to submitting documents.

14.0 Successors and Assigns

Vendor binds itself and its partners, successors, executors, administrators and assigns to City and to the partners, successors, executors, administrators and assigns of City, in respect to all covenants of this agreement; except as otherwise provided herein, Vendor shall not assign, sublet or transfer its interest in this agreement without the written consent of City.

15.0 Warranty

Unless otherwise indicated in the specifications, the minimum warranty required by the City of Indianapolis is the full extent of the manufacturer's warranty. The warranty shall cover all defects in materials and workmanship. The Vendor shall submit any warranty information or guarantee information along with manufacturer warranties or guarantees with submission of the quote. The City reserves the right to evaluate such as a material part of the quote package.

(The rest of this page left intentionally blank.)

Technical Specifications

1. The City's various agencies will submit a request for batteries through the purchase order process as needed. The Vendor shall, upon receipt of a valid purchase order, remit the quantity of batteries ordered to the appropriate agency under address designated on the purchase order. The City will not accept any back-orders for batteries. The Vendor shall notify the ordering agency upon receipt of a valid purchase order, if the contracted Vendor is unable or unwilling to supply some or all of the batteries ordered.

2. Invoices shall be submitted to the agency issuing the purchase order using the appropriate address supplied. The City reserves the right to purchase non-core batteries from previously awarded contracts or agreements. The City will compensate the Vendor according to the per-unit pricing specified herein and the quantity actually received. No payment shall be made prior to the receipt of the batteries ordered.

3. The Vendor shall price batteries using per each battery pricing, shall furnish any percent discount pricing and the reduced (final) price per each battery. All pricing shall be firm for the term of this agreement and any extensions.

4. The City will require the brand stated herein or **a City approved equal** unless stated otherwise.

5. The Indianapolis Metropolitan Police Department (IMPD) may require the shipment of batteries in bulk packaging (**no 2 packs, 4 pack, etc. of any kind**). IMPD will indicate such on the purchase order. No additional charges will be made to the City for these requirements.

(The rest of this page left intentionally blank.)

Minority, Women's or Veteran's Business Enterprise Participation Plan for Goods and Services
It is the policy of the City of Indianapolis that Minority Business Enterprises (MBEs), Women Business Enterprises (WBEs), and Veteran Business Enterprises (VBEs) shall have the maximum feasible opportunity to participate in the performance of contracts. Consequently, the City, through Article IV, sections 201-401 of the revised municipal code and Executive Order 5, 2008, has established MBE participation goals of 15%, WBE participation goals of 8%, and VBE participation goals of 3% for its dollars spent on public works, goods, and services.

The Contractor shall include information concerning its MBE, WBE, and VBE utilization for this contract on the attached MBE/WBE/VBE Participation Plan. To receive credit toward the MBE/WBE/VBE goals, all MBE, WBE, and VBE suppliers offered for "direct participation" in a contract (e.g. subcontracting) must be certified by the City's Department of Minority & Women Business Development (DMWBD). Contractors able to offer direct participation in the form of subcontractors must indicate the name of the MBE/WBE/VBE firm(s) with which it will work; the contact name and phone number for the firm(s); the service(s) supplied by the firm(s); and the specific dollar amount from this contract that will be directed toward each firm. The evaluation and review of a Contractor's MBE/WBE/VBE participation, including a review of documentation and information submitted, shall be undertaken by DMWBD. If you should need assistance in obtaining MBE/WBE/VBE certification for possible participation in a contract, please contact the DMWBD at http://www.indy.gov/eGov/City/DMWBD/MBE-WBE-VBE/Pages/Certification.aspx or (317) 327-5262. Respondents can view a list of City DMWBD approved MBE/WBE/VBE contractors by going to this web page: http://www.indy.gov/eGov/City/DMWBD/MBE-WBE-VBE/Pages/VendorList.aspx and clicking on the appropriate "vendor list".

The Contractor shall maintain adequate records of all relevant data with respect to the utilization and attempted utilization of MBEs, WBEs, and VBEs and shall provide full access to these records to the DMWBD upon its request to inspect them. The City may require the Contractor to submit information in addition to the MBE/WBE/VBE Participation Plan and/or Application for MBE/WBE/VBE Program Waiver regarding MBE/WBE/VBE certification and utilization. Such information may include, but is not limited to the following: (1) Copies of all executed agreements for each MBE/WBE/VBE engaged to satisfy the participation policies, (2) the name and address of the MBE/WBE/VBE, (3) the scope of work to be performed, (4) the dollar value of work to be performed or furnished by each proposed MBE/WBE/VBE subcontractor or MBE/WBE/VBE joint venture partner, (5) acknowledgement and acceptance of the agreement by the MBE/WBE/VBE, and (6) monthly utilization payment reports with each monthly application for payment.

While direct participation of MBE/WBE/VBE subcontractors is preferred, if it cannot be accomplished for this contract, "indirect participation" may be acceptable. Examples of indirect participation might include the use of common MBE/WBE/VBE suppliers (i.e., office suppliers, courier services, shipping services, etc.) contributing to overhead costs or the overall operation of the business. Indirect participation may occur at the local, regional or national level. (Note: For common suppliers located outside of Indiana that are participating in an indirect fashion, please return proof of home state or municipal certification to the DMWBD.) If the trade is an overhead item for the entire business, please calculate, to the best of your ability, the proportion or amount of the business from this contract that will impact MBE/WBE/VBEs.

Any contractor that does not have MBE/WBE/VBE direct participation shall submit the attached Application for MBE/WBE/VBE Program Waiver with the reasons for the lack of participation. The Waiver requires submission of documents showing the good faith efforts that were made by the Contractor for the purpose of attaining MBE/WBE/VBE firms as subcontractors or sources of supplies, equipment, and services. The Waiver must be submitted if a contractor does not have any direct or indirect MBE/WBE/VBE participation. If a contractor has only indirect participation, then the Waiver must be submitted for the direct participation and the MBE/WBE/VBE Participation Plan must be submitted for the indirect participation.

Failure to provide the MBE/WBE/VBE Participation Plan or Application for Waiver at the time of submission will result in the disqualification and rejection of the bid/proposal. The Purchasing Division and the DMWBD reserve the right to verify all information included in the MBE/WBE/VBE Participation Plan before making final determination of the contractor's responsiveness and responsibility.

Vendor discount for additional catalog items that may be purchased by the City 20% %

The Indianapolis Metropolitan Police Department has requested that no "or equal" batteries be provided to this agency for the following. The City realizes that pricing for these batteries may be a duplication of the pricing listed above. However, in order to satisfy the brand name only criteria, please submit pricing for the following.

Item Number	Description	List Price Each Battery	Percent of Discount (if any) If none enter "0"	Discount Price Each Battery
1.	Energizer EN91 "no exception"	$ .75	0 %	$ .27 ea.
2.	Energizer L91BP-2 "no exception"	$ 6.99	0 %	$ 3.89 ea.

Extended Price Sheet

1. If awarded an agreement as a result of this quote, will you extend your quoted prices to political subdivisions in Marion County (and notify Indianapolis Purchasing Division upon initial extension to an additional subdivision)?

YES___X_____ NO_____

2. If awarded an agreement as a result of this quote will you extend your quoted prices to political subdivisions in adjoining counties (and notify Indianapolis Purchasing division upon initial extension to an additional subdivision)?

YES___X_____ NO_____

[Political subdivisions include cities, towns, school corporations, and county governments. If you mark YES you are agreeing that you are willing to extend your quoted price/proposed price to any of these entities if they wish to purchase off of any Agreement resulting from this quote.]

3. Will there be a freight differential required to extend to pricing to political subdivisions outside Marion County?

YES_____ NO___X_____

4. The City of Indianapolis DOES NOT accept responsibility for purchase orders issued by other political subdivisions.

5. All political subdivisions must be willing to accept quoted items(s) as described in the specifications without any change or alteration, no matter how minute, once the quote is accepted by the City of Indianapolis.

(The rest of this page left intentionally blank.)

Exception Sheet
All – Purpose Batteries

Please list and explain any exceptions to the specifications and terms of the Invitation to Quote. Please note that the taking of an exception may cause your quote to be deemed "non-responsive" if it is determined to be a material variance.

Check List for Bid/Quote Submittal

1. Sign Bid/Quote Document(s).

2. Sign and notarize an Affidavit of Non-collusion.

3. Mail the Bid/Quote documents in an envelope. (Note: Larger document packages may be mailed in a suitable box) On the front of the envelope or box include the following;

- the bidding or quoting company's name
- the bidding or quoting company's complete correspondence address
- the date of the bid/quote opening
- and the bid/quote number (example: ITB – 00001234).

4. Vendors are responsible for checking the web site at www.indy.gov/purch for any addenda issued. By signing the bid/quote document(s), the vendor acknowledges any and all addenda issued.

5. Include with the bid/quote forms any other documents that may be requested per the specifications.

6. Your Bid/Quote may contain a "Minority, Women's and Veteran's Business Enterprise Participation Plan for Goods and Services". If attached to the Bid/Quote, an "MBE/WBE/VBE Participation Form" or "Application for Waiver" **must** be included with your submission. **FAILURE TO PROVIDE A COMPLETED MBE/WBE/VBE PARTICIPATION PLAN OR APPLICATION FOR WAIVER AT THE TIME OF SUBMISSION WILL RESULT IN A NON-RESPONSIVE BID.**

INTERSTATE ALL BATTERY CENTER

THE GROWING NEED FOR POWER

As technology advances and devices become hungrier for power, the demand for quality and affordable power continues to grow. From the latest cell phone and laptop product to sensitive security systems and the toughest construction equipment, Interstate All Battery Center's promise for your business is: We Have It, or We Find It or We Build It® –guaranteed. Backed by Interstate Batteries, the No. 1 automotive replacement brand battery in North America, you can count on the dependability of our people and products.

EVERY BATTERY FOR EVERY BUSINESS

Every industry uses gear and machines to create products and deliver services. Providing dependable service and competitive pricing, our highly trained professionals recognize the power requirements of your industry and will do what it takes to meet your individual business' needs. Serving every SIC business code with more than 16,000 different power solutions, let Interstate All Battery Center show you the benefits of being your one-stop power solutions resource.

BATTERIES SERVICES

Interstate All Battery Center offers complete power services including battery reconditioning and rebuilding, custom design and assembly for everyday or even the most unusual applications. Let our experts provide a free analysis and customize a program to encompass all the power needs of a department, division or your entire company. For larger and more complex power needs, our PowerCare division provides design, installation and service for motive power, uninterruptible power systems (UPS), and more. No matter the size, we can tailor the perfect solution for your power needs.

WE'VE ALWAYS BEEN GREEN

While other companies are jumping on the "green" bandwagon, we've been recycling for more than 55 years. Interstate's recycling system makes battery recycling virtually risk-free for your company and ensures compliance with all environmental and transportation laws, protecting you from financial liability while protecting the environment.

Protecting your Investment

Whether your investment is an industrial-strength circular saw, electric screwdriver, cordless drill or wrench, Interstate All Battery Center offers economical battery replacements for all brands including DeWalt, Black & Decker, Makita and Milwaukee. We also supply OEM chargers for most makes and models of cordless tools.

Another way to watch the bottom line is to rebuild rather than replace power tool batteries. Even if your battery type is no longer manufactured, we can custom build a replacement battery pack. Our custom-built replacement batteries come with a full one-year warranty and have a capacity rating that meets or exceeds that of the original battery.

Vehicle Batteries, Accessories

Replacement Battery Guide

Interstate's Replacement Battery Guide offers detailed SLI specifications and reference materials to provide replacement options based on vehicle information and tests.

SLI

AUTOMOTIVE

Interstate's automotive battery leads the industry in performance and quality. The product is built to top industry standards, and our route management and product rotation system guarantee that Interstate's product is fresh on the shelf. Industry junk bin studies prove that Interstate batteries last longer than the competition.

SLI

MARINE & RV

Interstate's deep-cycle and cranking marine/RV batteries are built to the highest standards by the industry's leading manufacturer. With anti-vibration technology, these batteries resist damage caused by the hard jolts of rough water and rough roads. Let Interstate put the power in your hands.

SLI

COMMERCIAL

Defeat downtime with the Workaholic® battery. With more durability and long-term power, these batteries meet the cycling demands of the new generation of commercial trucks and other heavy-duty applications. Workaholic batteries exceed OE standards, and their deep reserve capacity power meets today's demanding electronics.

SLI

POWERSPORTS

Get the extra edge needed for your motorcycle, ATV, personal watercraft or snowmobile with Interstate's Cycle-Tron® Powersports batteries. They're tough with high-impact covers to resist breakage and heat bonding that resists flexing under extreme vibration. Choose from factory-activated (plug and play), AGM or conventional dry batteries.

Vehicles (SLI)

Vehicle Batteries, Accessories

SLI

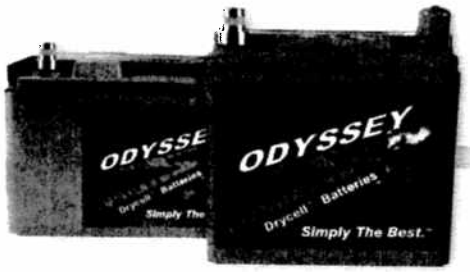
OPTIMA BATTERIES

Interstate All Battery Center can solve your needs for a variety of applications with Optima batteries. With patented Spiralcell® technology, Optima batteries provide great cranking power, fast recharge, better repetitive cycles and high vibration resistance. Ask our associates which Optima batteries are right for you.

SLI

ODYSSEY BATTERIES

The Odyssey battery combines the characteristics of two batteries into one — it can deep cycle and provide high cranking power. With superior vibration resistance and fast-charge capability, Odyssey batteries are made of military grade and have endured rigorous tests that demonstrate their overall tolerance of mechanical abuse.



Boosters & Chargers

PART #	VOLTS	DESCRIPTION
CHG0012	12V	1.5 Amp Automatic
CHG0013	12V	.9 Amp Automatic
CHG0043	12V	3.3 Amp Charger/Maintainer
CHG0047	12V	1.25 Amp Charger/Maintainer
CHG0058	12V	.75 Amp Trickle Charger
CHG0084	12V	900 Amp Booster Pack
CHG0086	12V	1500 Amp Booster Pack
CHG0490	6/12V	1.5 Amp Automatic Charger

BATTERY SERVICES:

CUSTOM BATTERY DESIGN and ASSEMBLY

At Interstate All Battery Center, we can provide every portable power solution you could possibly require. Can't find a battery to fit your specific power need? Let us create a custom battery to your exact specifications, no matter how large or complex the job. Custom battery pack design and engineering assistance is also available. We can even provide custom packaging.

WE KNOW. ASK US.

With the vast selection of battery types and chemistries for today's power-hungry devices, you're bound to have questions. Our staff will help you choose the right battery type for your power needs and will explain the do's and don'ts, along with proper maintenance tips, to help you get maximum power and longer life from your batteries.

To become a qualified portable power specialist, our technicians must pass an intensive five-star certification program designed to make them experts in every battery chemistry, configuration, capacity and use. Through ongoing training, they stay current with the latest technology and trends in testing, analyzing, conditioning, assembling and rebuilding your batteries.

BATTERY SERVICES:

RECYCLING

WE'VE ALWAYS BEEN GREEN

For more than 55 years, Interstate Batteries has collected and recycled lead-acid batteries using a system that surpasses state and local battery regulations. Not only do we make it easy to find just the right battery, but we also make recycling easy for ALL of your company's used batteries.

After their useful life, the chemicals in spent batteries can become an environmental hazard and in some states improper disposal is a legal violation.

Interstate's recycling system ensures compliance with all environmental and transportation laws, protecting you from financial liability while helping the environment. We work with local and national facilities to recycle or discard batteries in the most environmentally-friendly manner possible. From dead car batteries to lifeless power tool and cell phone batteries, we do it all as your one-stop battery recycling center.

RECYCLING SERVICES INCLUDE:

- Customized recycling programs
- Drop off and scheduled pickups available
- Help with EPA audits
- Disposal of all sealed lead-acid, NiCd, NiMh, Lithium Ion and Lithium Polymer batteries

Green may be the color of our batteries, but it also signifies our commitment to the environment and our customers. Partnering with Interstate makes battery recycling virtually risk-free for your company and allows you to spend your time and resources growing your business.

BATTERY SERVICES:

POWERCARE

INDUSTRIAL POWER SOLUTIONS

Interstate's PowerCare division provides power systems with reliable 24-hour support for the major industrial markets of critical and motive power. Services include engineering, installation, testing, PM programs and supply for forklift, UPS, telecommunications and switchgear applications.

CRITICAL POWER SOLUTIONS

With PowerCare, you'll have peace of mind. Our team will evaluate your requirements and environment to engineer, provide and install the best backup power system—one that works when you need it the most! Partnering with PowerCare affords you improved system reliability, reduced battery failures, increased battery life and reduced maintenance and operating costs. That's why industries like cable, petroleum refining, nuclear power, telecommunications, utilities and the military rely on us.

MOTIVE POWER SOLUTIONS

Get the most out of your equipment with PowerCare's motive solutions. We offer a full suite of products and service solutions to help meet your power demands. Whether you're operating sit-down rider forklifts, walkies, or narrow-aisle lift trucks we'll keep you up and running.

We can also maximize your batteries and chargers' potential with PowerCare's preventive-maintenance program to help you detect problems before they result in serious safety issues or downtime.
