

RFQ ADDENDUM

Brownfield Redevelopment Program – RFQ BRP-2017-001
On-Call Environmental Services
September 14, 2017

Clarifications:

- ***Is work for the Brownfield Redevelopment Program's On-Call Environmental Contractor's RFQ bid out annually?***

RFQs for on-call environmental firms contracts are not published on an annual basis. The current RFQ is intended to provide additional firms the opportunity to be considered for inclusion in the City's current pool of on-call environmental contractors, and expand the scope of work to include grant writing and emergency remediation. Refer to Sec. III of the sample contract (p.7 of the RFQ) for contract terms.

- ***What firms are currently under contract for on-call environmental services?***

Firms already under contract for on-call environmental work after responding RFQ BRP-2015-001 are Heartland Environmental Associates, Inc.; Industrial Waste Management Consulting Group, LLC; and Keramida, Inc.

- ***Do firms currently under contract for on-call environmental services have to reapply?***

Firms already under contract for on-call environmental services only need to submit responses if they want to be considered for the expanded scope of work listed on p. 21-22 of Attachment A. Inclusions to the previous scope of work include: #6 Grant Writing; #7 Emergency Remediation Services. The same applies to firms that were deemed to be qualified under RFQ BRP-2015-001, but do not have contracts at this time.
