

## RECOMMENDED LOW STREET TREES FOR MARION COUNTY

Recommended by the Indianapolis/Marion County Tree Board

Minimum required size at time of planting: 1 1/2" caliper

Typical required spacing: 25' on center

This list is provided for your convenience, but it is not a complete list of the many species and cultivars that may be approved for planting in Indianapolis/Marion County. Choosing the appropriate tree is essential to a successful, sustainable landscape. Factors to consider when selecting the plants for your site are height and spread, shape, soil conditions, light requirements, fruiting, and hardiness. Be particularly mindful of both overhead and underground utilities.
