H = Holiday Schedule

** If information is submitted after the deadline, the subject petition could be continued to allow time for review of the new information in accordance with the staff report deadline schedule. To conform to the staff report deadline schedule, most continuance requests would be for at least three weeks. Without a continuance, the petition could be heard without the full consideration of the new information.

Filings that are received by the "Last Day to File" are eligible to be docketed for the corresponding hearing date. Actual docketing also depends upon the completeness of the actual filing and the number of petitions currently pending.
