With the exception of criminal homicides, this chart presents **preliminary** counts of original Police Incident Reports. Full statistical analysis to determine the confidence level of this data has not been performed. In general, the **preliminary** incident counts are less than the crimes eventually reported on the UCR Crime Report, particularly for the crime of Aggravated Assault. Further the % change columns on the **preliminary** incident count differ from the percentage change on the UCR crime report, sometimes significantly.

The criminal homicide totals were extracted from the HomiStat database where the Motive was not Self Defense, Accidental, Police Action Shooting, or Neglect; UCR may refine the criminal homicide classification.
