SECTION V. GENERAL PROVISIONS

- 5.01 Independent Contractor. The parties agree that Contractor is an independent contractor as that term is commonly used and is not an employee of the Consolidated City of Indianapolis and/or Marion County. As such, Contractor is solely responsible for all taxes, and none shall be withheld from the sums paid to Contractor. Contractor acknowledges that it is not insured in any manner by City for any loss of any kind whatsoever. Contractor has no authority, express or implied, to bind or obligate the City in any way.
 - 5.01.1 Approval required. The parties agree that Contractor shall not subcontract, assign or delegate any portion of this Agreement or the services to be provided hereunder without prior written approval of the City. Contractor shall remain solely responsible for management, directing, and paying the person or persons to whom such responsibilities or obligations are assigned, sublet, or delegated. City shall have no obligation whatsoever to such person or entities. Any consent given in accordance this provision shall not be construed to relieve Contractor of any responsibility for performing under this Agreement.

- 5.02 Agreement as Public Record. Contractor acknowledges that City/County will not treat this Agreement as confidential information and will post the Agreement on the City/County website as required by Section 141-105 of the Revised Code of the Consolidated City of Indianapolis and Marion County. Use by the public of any document or the information contained therein, shall not be considered an act of City/County.
- 5.02 Termination for Failure of Funding. When the fiscal body of the Consolidated City of Indianapolis and Marion County ("City-County Council") makes a written determination that funds are not appropriated or otherwise available to support continuation of performance of this Agreement, this Agreement shall be canceled. A determination by the City-County Council that funds are not appropriated or otherwise available to support continuation of performance shall be final and conclusive.
- 5.03 Termination for Cause or Convenience.
- 5.03.01. If Contractor becomes insolvent, or if it refused or fails to perform the work and services provided by this Agreement, or if it refused to perform disputed work or services as directed pending resolution of such dispute, or if it fails to make payments to subcontractors employed by it, or if it otherwise violates or fails to perform any term, covenant or provision of this Agreement, then City may, without prejudice to any other right or remedy, terminate this Agreement in whole or in part, in writing, provided that Contractor shall be given (1) not less than thirty (30) calendar days written notice of City's intent to terminate, and (2) an opportunity for consultation with City prior to termination. In determining the amount of final payment to be made to Contractor upon such termination for default, if any, no amount shall be allowed for anticipated profit or unperformed services or other work.
- 5.03.2 This Agreement may be terminated in whole or in part in writing by City for City's convenience, providing that Contractor is given (1) not less than thirty (30) calendar days' written notice of intent to terminate and (2) an opportunity for consultation with City prior to termination. If City terminates for convenience, Contractor's compensation shall be equitably adjusted.
- 5.03.3 Upon receipt of notice of termination for default or for City's convenience, Contractor shall (1) promptly discontinue all services affected, unless the termination notice directs otherwise, and (2) deliver or otherwise make available to City all Works and such other information, materials or documents as may have been accumulated by Contractor in performing this Agreement, whether completed or in process.
- 5.04 Non-discrimination. Contractor and its officers, agents, employees, and subcontractors shall not discriminate against any employee or applicant for employment to be employed in the performance of this Agreement, with respect to her or his hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of her or his race, sex, sexual orientation, gender identity, religion, color, national origin, ancestry, age, disability, or United States military service veteran status. Breach of this section shall be regarded as a material breach of this Agreement.
- 5.05 Minority, Women's, Veteran's, or Disability-Owned Business Enterprise Participation To the extent To the extent Contractor uses subcontractors or other agents in the performance of services under this Agreement, Contractor shall either (a) use, at a minimum, fifteen percent (15%) Minority Business Enterprises, eight percent (8%) Women's Business Enterprises, three percent (3%) Veteran's Business

Enterprises and one percent (1%) Disability-Owned Business Enterprises in the performance of services under this Agreement, or (b) demonstrate a good faith effort to achieve such percentages, in compliance with the policies and to the satisfaction of Indianapolis's Department of Minority & Women Business Development. Breach of this section shall be regarded as a material breach of this Agreement.

5.06 Compliance With E-Verify Program. Pursuant to IC 22-5-1.7, Contractor shall enroll in and verify the work eligibility status of all newly hired employees of Contractor through the E-Verify Program ("Program"). Contractor is not required to verify the work eligibility status of all newly hired employees through the Program if the Program no longer exists.

5.06.1 Contractor and its subcontractors shall not knowingly employ or contract with an unauthorized alien or retain an employee or contract with a person that Contractor or its subcontractor subsequently learns is an unauthorized alien. If Contractor violates this Section 5.05, City/County shall require Contractor to remedy the violation not later than thirty (30) days after City/County notifies Contractor. If Contractor fails to remedy the violation within the thirty (30) day period, City/County shall terminate the Agreement for breach of contract. If City/County terminates the Agreement, Contractor shall, in addition to any other contractual remedies, be liable to City/County for actual damages. There is a rebuttable presumption that Contractor did not knowingly employ an unauthorized alien if Contractor verified the work eligibility status of the employee through the Program.

5.06.2 If Contractor employs or contracts with an unauthorized alien but City/County determines that terminating the Agreement would be detrimental to the public interest or public property, City/County may allow the Agreement to remain in effect until City/County procures a new contractor.

5.06.3 Contractor shall, prior to performing any work, require each subcontractor to certify to Contractor that the subcontractor does not knowingly employ or contract with an unauthorized alien and has enrolled in the Program. Contractor shall maintain on file a certification from each subcontractor throughout the duration of this Agreement. B. The Contractor certifies that it has verified the state and federal suspension and debarment status for all subcontractors receiving funds under this Contract and shall be solely responsible for any recoupment, penalties or costs that might arise from use of a suspended or debarred subcontractor. The Contractor shall immediately notify the State if any subcontractor becomes debarred or suspended, and shall, at the State's request, take all steps required by the State to terminate its contractual relationship with the subcontractor for work to be performed under this Contract.

15. Default by State. If the State, sixty (60) days after receipt of written notice, fails to correct or cure any material breach of this Contract, the Contractor may cancel and terminate this Contract and institute measures to collect monies due up to and including the date of termination.

16. Disputes.

A. Should any disputes arise with respect to this Contract, the Contractor and the State agree to act immediately to resolve such disputes. Time is of the essence in the resolution of disputes.

B. The Contractor agrees that, the existence of a dispute notwithstanding, it will continue without delay to carry out all of its responsibilities under this Contract that are not affected by the dispute. Should the Contractor fail to continue to perform its responsibilities regarding all non-disputed work, without delay, any additional costs incurred by the State or the Contractor as a result of such failure to proceed shall be borne by the Contractor, and the Contractor shall make no claim against the State for such costs.

C. If the parties are unable to resolve a contract dispute between them after good faith attempts to do so, a dissatisfied party shall submit the dispute to the Commissioner of the Indiana Department of Administration for resolution. The dissatisfied party shall give written notice to the Commissioner and the other party. The notice shall include: (1) a description of the disputed issues, (2) the efforts made to resolve the dispute, and (3) a proposed resolution. The Commissioner shall promptly issue a Notice setting out documents and materials to be submitted to the Commissioner in order to resolve the dispute; the Notice may also afford the parties the opportunity to make presentations and enter into further negotiations. Within thirty (30) business days of the conclusion of the final presentations, the Commissioner shall issue a written decision and furnish it to both parties. The Commissioner's decision shall be the final and conclusive administrative decision unless either party serves on the Commissioner and the other party, within ten (10) business days after receipt of the Commissioner's decision, a written request for reconsideration and modification of the written decision. If the Commissioner does not modify the written decision within thirty (30) business days, either party may take such other action helpful to resolving the dispute, including submitting the dispute to an Indiana court of competent jurisdiction. If the parties accept the Commissioner's decision, it may be memorialized as a written Amendment to this Contract if appropriate.

D. The State may withhold payments on disputed items pending resolution of the dispute. The unintentional nonpayment by the State to the Contractor of one or more invoices not in dispute in accordance with the terms of this Contract will not be cause for the Contractor to terminate this Contract,

and the Contractor may bring suit to collect these amounts without following the disputes procedure contained herein.

E. With the written approval of the Commissioner of the Indiana Department of Administration, the parties may agree to forego the process described in subdivision C. relating to submission of the dispute to the Commissioner.

F. This paragraph shall not be construed to abrogate provisions of IC § 4-6-2-11 in situations where dispute resolution efforts lead to a compromise of claims in favor of the State as described in that statute. In particular, releases or settlement agreements involving releases of legal claims or potential legal claims of the state should be processed consistent with IC § 4-6-2-11, which requires approval of the Governor and Attorney General.

17. Drug-Free Workplace Certification. As required by Executive Order No. 90-5 dated April 12, 1990, issued by the Governor of Indiana, the Contractor hereby covenants and agrees to make a good faith effort to provide and maintain a drug-free workplace. The Contractor will give written notice to the State within ten (10) days after receiving actual notice that the Contractor, or an employee of the Contractor in the State of Indiana, has been convicted of a criminal drug violation occurring in the workplace. False certification or violation of this certification may result in sanctions including, but not limited to, suspension of contract payments, termination of this Contract and/or debarment of contracting opportunities with the State for up to three (3) years.

In addition to the provisions of the above paragraph, if the total amount set forth in this Contract is in excess of \$25,000.00, the Contractor certifies and agrees that it will provide a drug-free workplace by:

- A. Publishing and providing to all of its employees a statement notifying them that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the Contractor's workplace, and specifying the actions that will be taken against employees for violations of such prohibition;
- B. Establishing a drug-free awareness program to inform its employees of: (1) the dangers of drug abuse in the workplace; (2) the Contractor's policy of maintaining a drug-free workplace; (3) any available drug counseling, rehabilitation and employee assistance programs; and (4) the penalties that may be imposed upon an employee for drug abuse violations occurring in the workplace;
- C. Notifying all employees in the statement required by subparagraph (A) above that as a condition of continued employment, the employee will: (1) abide by the terms of the statement; and (2) notify the Contractor of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction;
- D. Notifying the State in writing within ten (10) days after receiving notice from an employee under subdivision (C)(2) above, or otherwise receiving actual notice of such conviction;
- E. Within thirty (30) days after receiving notice under subdivision (C)(2) above of a conviction, imposing the following sanctions or remedial measures on any employee who is convicted of drug abuse violations occurring in the workplace: (1) taking appropriate personnel action against the employee, up to and including termination; or (2) requiring such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state or local health, law enforcement, or other appropriate agency; and

F. Making a good faith effort to maintain a drug-free workplace through the implementation of subparagraphs (A) through (E) above.

18. Employment Eligibility Verification. As required by IC § 22-5-1.7, the Contractor swears or affirms under the penalties of perjury that the Contractor does not knowingly employ an unauthorized alien. The Contractor further agrees that:

A. The Contractor shall enroll in and verify the work eligibility status of all his/her/its newly hired employees through the E-Verify program as defined in IC § 22-5-1.7-3. The Contractor is not required to participate should the E-Verify program cease to exist. Additionally, the Contractor is not required to participate if the Contractor is self-employed and does not employ any employees.

B. The Contractor shall not knowingly employ or contract with an unauthorized alien. The Contractor shall not retain an employee or contract with a person that the Contractor subsequently learns is an unauthorized alien.

C. The Contractor shall require his/her/its subcontractors, who perform work under this Contract, to certify to the Contractor that the subcontractor does not knowingly employ or contract with an unauthorized alien and that the subcontractor has enrolled and is participating in the E-Verify program. The Contractor agrees to maintain this certification throughout the duration of the term of a contract with a subcontractor.

The State may terminate for default if the Contractor fails to cure a breach of this provision no later than thirty (30) days after being notified by the State.

19. Employment Option. If the State determines that it would be in the State's best interest to hire an employee of the Contractor, the Contractor will release the selected employee from any non-competition agreements that may be in effect. This release will be at no cost to the State or the employee.

20. Force Majeure. In the event that either party is unable to perform any of its obligations under this Contract or to enjoy any of its benefits because of natural disaster or decrees of governmental bodies not the fault of the affected party (hereinafter referred to as a "Force Majeure Event"), the party who has been so affected shall immediately or as soon as is reasonably possible under the circumstances give notice to the other party and shall do everything possible to resume performance. Upon receipt of such notice, all obligations under this Contract shall be immediately suspended. If the period of nonperformance exceeds thirty (30) days from the receipt of notice of the Force Majeure Event, the party whose ability to perform has not been so affected may, by giving written notice, terminate this Contract.

21. Funding Cancellation. As required by Financial Management Circular 3.3 and IC § 5-22-17-5, when the Director of the State Budget Agency makes a written determination that funds are not appropriated or otherwise available to support continuation of performance of this Contract, this Contract shall be canceled. A determination by the Director of State Budget Agency that funds are not appropriated or otherwise available to support continuation of performance shall be final and conclusive.

24. Indemnification. The Contractor agrees to indemnify, defend, and hold harmless the State, its agents, officials, and employees from all third party claims and suits including court costs, attorney's fees, and other expenses caused by any act or omission of the Contractor and/or its subcontractors, if any, in the performance of this Contract. The State will not provide indemnification to the Contractor.

25. Independent Contractor; Workers' Compensation Insurance. The Contractor is performing as an independent entity under this Contract. No part of this Contract shall be construed to represent the creation of an employment, agency, partnership or joint venture agreement between the parties. Neither party will assume liability for any injury (including death) to any persons, or damage to any property, arising out of the acts or omissions of the agents, employees or subcontractors of the other party. The Contractor shall provide all necessary unemployment and workers' compensation insurance for the Contractor's employees, and Contractor shall provide the State with a Certificate of Insurance evidencing such coverage prior to starting work under this Contract.

The term of the renewed contract may not be longer than the term of the original Contract.

42. Severability. The invalidity of any section, subsection, clause or provision of this Contract shall not affect the validity of the remaining sections, subsections, clauses or provisions of this Contract.

43. Substantial Performance. This Contract shall be deemed to be substantially performed only when fully performed according to its terms and conditions and any written amendments or supplements.

44. Taxes. The State is exempt from most state and local taxes and many federal taxes. The State will not be responsible for any taxes levied on the Contractor as a result of this Contract.

Termination of services shall be effected by delivery to the Contractor of a Termination Notice at least thirty (30) days prior to the termination effective date, specifying the extent to which performance of services under such termination becomes effective. The Contractor shall be compensated for services properly rendered prior to the effective date of termination. The State will not be liable for services performed after the effective date of termination. The Contractor shall be compensated for services herein provided but in no case shall total payment made to the Contractor exceed the original contract price or shall any price increase be allowed on individual line items if canceled only in part prior to the original termination date. For the purposes of this paragraph, the parties stipulate and agree that IDOA shall be deemed to be a party to this Contract with authority to terminate the same for convenience when such termination is determined by the Commissioner of IDOA to be in the best interests of the State.

46. Termination for Default.

A. With the provision of thirty (30) days' notice to the Contractor, the State may terminate this Contract in whole or in part if the Contractor fails to:

1. Correct or cure any breach of this Contract; the time to correct or cure the breach may be extended beyond thirty (30) days if the State determines progress is being made and the extension is agreed to by the parties;
2. Deliver the supplies or perform the services within the time specified in this Contract or any extension;
3. Make progress so as to endanger performance of this Contract; or
4. Perform any of the other provisions of this Contract.

B. If the State terminates this Contract in whole or in part, it may acquire, under the terms and in the manner the State considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

C. The State shall pay the contract price for completed supplies delivered and services accepted. The Contractor and the State shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the State determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.

D. The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or equity or under this Contract.

47. Travel. No expenses for travel will be reimbursed unless specifically authorized by this Contract. Permitted expenses will be reimbursed at the rate paid by the State and in accordance with the *Indiana Department of Administration Travel Policy and Procedures* in effect at the time the expenditure is made. Neither the State's review, approval or acceptance of, nor payment for, the services required under this Contract shall be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the Contractor shall be and remain liable to the State in accordance with applicable law for all damages to the State caused by the Contractor's negligent performance of any of the services furnished under this Contract.

D. As used in IRS Exhibit 7 [for General Services] or [for Technology Services], [which is attached hereto as **Exhibit 3** and hereby incorporated by reference], and as used in the remaining paragraphs of this Section:

"return" means any tax or information return, declaration of estimated tax, or claim for refund required by, or provided for or permitted under, the provisions of the Internal Revenue Code ("IRC") which is filed with the Secretary of the Treasury or his delegate (hereinafter in this Section referred to as "Secretary") by, on behalf of, or with respect to any Person (hereinafter in this Section, "Person" means an individual, a trust, estate, partnership, association, company or corporation), and any amendment or supplement thereto, including supporting schedules, attachments, or lists which are supplemental to, or part of, the return so filed.

"return information" means --

- (1) a Taxpayer's (hereinafter in this Section, "Taxpayer" means any Person subject to any internal revenue tax) identity, the nature, source, or amount of his income, payments, receipts, deductions, exemptions, credits, assets, liabilities, net worth, tax liability, tax withheld, deficiencies, overassessments, or tax payments, whether the Taxpayer's return was, is being, or will be examined or subject to other investigation or processing, or any other data, received by, recorded by, prepared by, furnished to, or collected by the Secretary with respect to a return or with respect to the determination of the existence, or possible existence, of liability (or the amount thereof) of any Person under the IRC for any tax, penalty, interest, fine, forfeiture, or other imposition, or offense,
- (2) any part of any written determination or any background file document relating to such written determination (as such terms are defined in section 6110(b) of the IRC) which is not open to public inspection under section 6110 of the IRC,
- (3) any advance pricing agreement entered into by a Taxpayer and the Secretary and any background information related to such agreement or any application for an advance pricing agreement, and
- (4) any agreement under section 7121 of the IRC, and any similar agreement, and any background information related to such an agreement or request for such an agreement,

but such term does not include data in a form which cannot be associated with, or otherwise identify, directly or indirectly, a particular Taxpayer. Nothing in the preceding sentence, or in any other provision of law, shall be construed to require the disclosure of standards used or to be used for the selection of returns for examination, or data used or to be used for determining such standards, if the Secretary determines that such disclosure will seriously impair assessment, collection, or enforcement under the internal revenue laws.

E. For any Federal tax return and return information ("FTI"), in performing its obligations hereunder, the Contractor agrees to comply with all applicable provisions of the "Tax Information Security Guidelines for Federal, State, and Local Agencies," IRS Publication 1075, published by

the Secretary of the Treasury and available at the following Internal Revenue Service ("IRS") website (or any designated successor website): <http://www.irs.gov/pub/irs-pdf/p1075.pdf>.

F. As required by the IRC and to ensure IRS audit compliance, in performing its obligations hereunder, the Contractor must comply with all of the applicable requirements/information set forth in IRS Exhibit 7 [for General Services] or [for Technology Services].

G. The provisions/requirements outlined above in this Section and outlined in IRS Exhibit 7 [for General Services] or [for Technology Services] equally apply to state of Indiana tax returns and return information, with "return" and "return information" utilized in this sentence in the same manner as such terms are defined above in paragraph [D] of this Section, except the terms used herein are received by, recorded by, prepared by, furnished to, collected by, or otherwise related to the Indiana Department of State Revenue.

H. The parties acknowledge that even though the Contractor has access to Federal tax return and return information ("FTI") pursuant to this Contract, such FTI has not been obtained from the Internal Revenue Service ("IRS"). If the situation changes and the Contractor is going to have access to FTI obtained from the IRS pursuant to this Contract, this Contract will have to be formally amended to ensure that the Contractor will have to comply will all applicable provisions of the "Tax Information Security Guidelines for Federal, State, and Local Agencies," IRS Publication 1075, published by the Secretary of the Treasury and available at the following Internal Revenue Service ("IRS") website (or any designated successor website): <http://www.irs.gov/pub/irs-pdf/p1075.pdf>, and the Contractor will also have to comply with all of the requirements/information set forth in the appropriate IRS Exhibit 7.

D. The foregoing certification is a material representation of fact upon which reliance was or will be placed when entering into this Contract and any transactions with the State. Submission of this certification is a prerequisite for making or entering into any transaction as imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000.00 and not more than \$100,000.00 for each such failure.

(1) With the provision of thirty (30) days' notice to the Contractor, the State may terminate this Contract if the Contractor fails to:

- (a) Correct or cure any breach of this Contract; the time to correct or cure the breach may be extended beyond thirty (30) days if the State determines progress is being made and the extension is agreed to by the parties,

Exhibit G
Department of Revenue Security Requirements

While carrying out the tasks defined in this Contract, Contractor may encounter sensitive information to include Personally Identifiable Information (PII) and Federal Tax Information (FTI). Therefore, Contractor must acknowledge and abide by the following DOR security requirements to ensure PII and FTI is protected in accordance with the federal standards DOR must adhere to.

Security Requirements

DOR has adopted a FISMA-based security requirement for its operations and systems due to the high need to keep DOR's data confidential, available, and with high integrity. DOR uses the high intolerance for risk in its assessment of the system. DOR classifies its systems as moderate impact systems under the FIPS Publication 199. DOR requires the Contractor to be compliant with such a security scheme for its system and operations because DOR will be transmitting its data to the Contractor. The following points detail DOR's requirements. PLEASE NOTE: DOR will not accept any Contractor solution that does not meet DOR's security requirements.

1. Contractor must comply with NIST and IRS Publication 1075 (PUB 1075) security controls and requirements to which DOR subscribes. DOR has adopted the NIST 800-53 standards for security controls. Contractor must be familiar with the requirements of NIST 800-53 to certify that their software conforms to NIST 800-53 and to assist DOR with installing its software in a manner that complies with NIST 800-53 (full up to date version found here: <https://doi.org/10.6028/NIST.SP.800-53r5>). Contractor must also comply with all aspects of NIST 800-53 during support activities when they attach to the State's data network to perform support tasks. Any contractor who possesses DOR data in Contractor's facilities must comply with all aspects of NIST 800-53 pertaining to safeguarding that data. Contractor should also note that in some instances NIST 800-53 references other federal standards, such as the FIPS 140-2 Encryption Standard, with which it must also comply. DOR must comply with IRS PUB 1075 governing federal, state, and local entities' use of federal tax information (FTI). As a result, Contractor must also comply with IRS PUB 1075 when handling FTI and the systems on which it resides. Contractor should note that PUB 1075 is a subset of the standards and controls identified in NIST 800-53.

DOR will evaluate all system security models based on DOR's reading of FISMA, NIST SP800-53, and security best practices.

It is DOR's security standard that each system is responsible for securing its own data and should not rely on environmentally supplied technologies for security. For example, Contractor should not assume that the data in Contractor's system is secure because DOR has secured the servers upon which the application or its database is installed. Under this assumption, the data in Contractor's system is immediately vulnerable to intrusion if the intruder breaks through DOR's server security. Contractor recognizes that compliance with DOR's security standard is vital to DOR's ability to protect against unauthorized access or intrusion.

- A. Contractor shall provide evidence of compliance with NIST 800-53 and IRS PUB 1075. Evidence shall include the report of Contractor's self assessment of information technology (IT) assets, processes, practices, and facilities against security criteria from aforementioned documents. The first of these self assessments shall be provided with the RFP response. This assessment should be qualitative in nature. Contractor should review the aforementioned publications and provide its compliance with each point.
- B. Contractor must certify to compliance with DOR's reading of FISMA, NIST SP800-53, and security best practices.
- C. Contractor must describe how its proposed solution provides its own data security.

Contract #: Information Technology Software Value Added Reseller and Related Services
Exhibit G
Department of Revenue Security Requirements

- D. Contractor will be required to evaluate its proposed system against a set of security technology implementation guidelines (STIGs). The STIGs are specific to Contractor's technology stack. They are also a very objective measure of compliance with NIST requirements. The STIGs are available on the Defense Information Security Agency (<http://iase.disa.mil/stigs>) website.
2. Contractor acknowledges that the information that DOR provides may include personally identifiable information and it is Contractor's obligation to keep all such accessed information confidential and secure. Accordingly, Contractor shall purge all information received from DOR at the end of the calendar year in which the data was received, provided that DOR may extend such period if and solely to the extent such information is retained thereafter in archival form to assist DOR in performing statistical analysis required for DOR's legal or regulatory compliance efforts
 3. Contractor certifies that the data processed during the performance of this contract will be completely purged from all data storage components of Contractor's computer facility at the end of the calendar year in which the data was received. Contractor certifies that any confidential taxpayer information and data remaining in any storage component pending such purge will be safeguarded to prevent unauthorized disclosures.
 4. In the event of an information disclosure or technical security incident, DOR security must be informed within 24 hours of the incident along with relevant details about: (1) the indications and warnings of compromise were observed; (2) what and when information and systems were potentially compromised; and (3) the mitigating actions taken and planned to protect against and recover from the potential compromise.
 5. Contractor will follow the IRS Safeguard Exhibit 7 as follows:

I. PERFORMANCE

In performance of this contract, the Contractor agrees to comply with and assume responsibility for compliance by officers or employees with the following requirements:

- (1) All work will be performed under the supervision of the contractor.
- (2) The contractor and the contractor's employees with access to or who use FTI must meet the background check requirements defined in IRS Publication 1075. The contractor will maintain a list of officers or employees authorized access to FTI. Such list will be provided to the agency and, upon request, to the IRS.
- (3) FTI in hardcopy or electronic format shall be used only for the purpose of carrying out the provisions of this contract. FTI in any format shall be treated as confidential and shall not be divulged or made known in any manner to any person except as may be necessary in the performance of this contract. Inspection or disclosure of FTI to anyone other than the contractor or the contractor's officers or employees authorized is prohibited.
- (4) FTI will be accounted for upon receipt and properly stored before, during, and after processing. In addition, any related output and products require the same level of protection as required for the source material.
- (5) The contractor will certify that FTI processed during the performance of this contract will be completely purged from all physical and electronic data storage with no output to be retained by the contractor at the time the work is completed. If immediate purging of physical and electronic

Contract #: Information Technology Software Value Added Reseller and Related Services
Exhibit G
Department of Revenue Security Requirements

data storage is not possible, the contractor will certify that any FTI in physical or electronic storage will remain safeguarded to prevent unauthorized disclosures.

- (6) Any spoilage or any intermediate hard copy printout that may result during the processing of FTI will be given to the agency. When this is not possible, the contractor will be responsible for the destruction of the spoilage or any intermediate hard copy printouts, and will provide the agency with a statement containing the date of destruction, description of material destroyed, and the method.
- (7) All computer systems receiving, processing, storing or transmitting FTI must meet the requirements IRS Publication 1075. To meet functional and assurance requirements, the security features of the environment must provide for the managerial, operational, and technical controls. All security features must be available and activated to protect against unauthorized use of and access to FTI.
- (8) No work involving FTI furnished under this contract will be subcontracted without prior written approval of the IRS.
- (9) Contractor will ensure that the terms of FTI safeguards described herein are included, without modification, in any approved subcontract for work involving FTI.
- (10) To the extent the terms, provisions, duties, requirements, and obligations of this contract apply to performing services with FTI, the contractor shall assume toward the subcontractor all obligations, duties and responsibilities that the agency under this contract assumes toward the contractor, and the subcontractor shall assume toward the contractor all the same obligations, duties and responsibilities which the contractor assumes toward the agency under this contract.
- (11) In addition to the subcontractor's obligations and duties under an approved subcontract, the terms and conditions of this contract apply to the subcontractor, and the subcontractor is bound and obligated to the contractor hereunder by the same terms and conditions by which the contractor is bound and obligated to the agency under this contract.
- (12) For purposes of this contract, the term "contractor" includes any officer or employee of the contractor with access to or who uses FTI, and the term "subcontractor" includes any officer or employee of the subcontractor with access to or who uses FTI.
- (13) The agency will have the right to void the contract if the contractor fails to meet the terms of FTI safeguards described herein.

II. CRIMINAL/CIVIL SANCTIONS

- (1) Each officer or employee of a contractor to whom FTI is or may be disclosed shall be notified in writing that FTI disclosed to such officer or employee can be used only for a purpose and to the extent authorized herein, and that further disclosure of any FTI for a purpose not authorized herein constitutes a felony punishable upon conviction by a fine of as much as \$5,000 or imprisonment for as long as 5 years, or both, together with the costs of prosecution.
- (2) Each officer or employee of a contractor to whom FTI is or may be accessible shall be notified in writing that FTI accessible to such officer or employee may be accessed only for a purpose and to the

extent authorized herein, and that access/inspection of FTI without an official need-to-know for a purpose not authorized herein constitutes a criminal misdemeanor punishable upon conviction by a fine of as much as \$1,000 or imprisonment for as long as 1 year, or both, together with the costs of prosecution.

(3) Each officer or employee of a contractor to whom FTI is or may be disclosed shall be notified in writing that any such unauthorized access, inspection or disclosure of FTI may also result in an award of civil damages against the officer or employee in an amount equal to the sum of the greater of \$1,000 for each unauthorized access, inspection, or disclosure, or the sum of actual damages sustained as a result of such unauthorized access, inspection, or disclosure, plus in the case of a willful unauthorized access, inspection, or disclosure or an unauthorized access/inspection or disclosure which is the result of gross negligence, punitive damages, plus the cost of the action. These penalties are prescribed by IRC sections 7213, 7213A and 7431 and set forth at 26 CFR 301.6103(n)-1.

(4) Additionally, it is incumbent upon the contractor to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a(i)(1), which is made applicable to contractors by 5 U.S.C. 552a(m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position, has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is so prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

(5) Granting a contractor access to FTI must be preceded by certifying that each officer or employee understands the agency's security policy and procedures for safeguarding FTI. A contractor and each officer or employee must maintain their authorization to access FTI through annual recertification of their understanding of the agency's security policy and procedures for safeguarding FTI. The initial certification and recertifications must be documented and placed in the agency's files for review. As part of the certification and at least annually afterwards, a contractor and each officer or employee must be advised of the provisions of IRC sections 7213, 7213A, and 7431 (see Exhibit 4, *Sanctions for Unauthorized Disclosure*, and Exhibit 5, *Civil Damages for Unauthorized Disclosure*). The training on the agency's security policy and procedures provided before the initial certification and annually thereafter must also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches. (See Section 10) For the initial certification and the annual recertifications, the contractor and each officer or employee must sign, either with ink or electronic signature, a confidentiality statement certifying their understanding of the security requirements.

III. INSPECTION

The IRS and the Agency, with 24 hour notice, shall have the right to send its inspectors into the offices and plants of the contractor to inspect facilities and operations performing any work with FTI under this contract for compliance with requirements defined in IRS Publication 1075. The IRS' right of inspection shall include the use of manual and/or automated scanning tools to perform compliance and vulnerability assessments of information technology (IT) assets that access, store, process or transmit FTI. Based on the inspection, corrective actions may be required in cases where the contractor is found to be noncompliant with FTI safeguard requirements.

Family and Social Services Confidentiality, Security and Privacy of Personal Information

- i. The term “Breach” has the same meaning as defined in the HIPAA Breach Rule with respect to PHI and with respect to PII also means the compromise, unauthorized disclosure, unauthorized access, loss of control, or any similar term or phrase that refers to situations where persons other than authorized users or for an other-than-authorized purpose have access or potential access to PII, whether physical or electronic.
 - ii. “Security Incident” means a violation or imminent threat of violation of a security policy, acceptable use policies, or standard security practices, inclusive of the act of violating an explicit or implied security policy, which includes attempts (either failed or successful) to gain unauthorized access to a system or its data; unwanted disruption or denial of service; the unauthorized use of a system for the processing or storage of data; changes to system hardware, firmware, or software characteristics without the owner’s knowledge, instruction, or consent; loss of PII or other sensitive data through theft or device misplacement, loss or misplacement of hardcopy documents, and misrouting of mail (physical or electronic), all of which may have the potential to put PII or other sensitive data at risk of or expose PII/other sensitive data to an opportunity for unauthorized access, use, disclosure, modification, or destruction.
- 3) If a Security Incident occurs or if Contractor suspects that a Security Incident may have occurred with respect to PII in Contractor’s safekeeping or as otherwise being legitimately used by Contractor in Contractor’s performance of its services under this Contract:
 - a) Contractor shall notify the State of the Security Incident within one (1) business day of when Contractor discovered the Security Incident; such notification shall be made to the FSSA Privacy & Security Office in a manner reasonably prescribed by the FSSA Privacy & Security Officer and shall include as much detail as the Contractor reasonably may be able to acquire within the one (1) business day.
 - b) For the purposes of such Security Incidents, “discovered” and “discovery” shall mean the first day on which such Security Incident is known to the Contractor or, by exercising reasonable diligence, would have been known to the Contractor. Regardless of whether the Contractor failed to exercise reasonable diligence, improperly delaying the notification of discovery beyond the one (1) day requirement, the Contractor will notify the FSSA Privacy & Security Office within one (1) day of gaining actual knowledge of a Security Incident.
 - c) In collaboration with the FSSA Privacy & Security Office, Contractor shall undertake all commercially reasonable efforts necessary to thoroughly investigate the Security Incident and to provide all results of such investigation to the FSSA Privacy & Security Office, including but not limited to Contractor personnel involved, source and cause of the Security Incident, specific information disclosed or possibly exposed, disclosure victims (those whose PII was disclosed or may have been disclosed or exposed to unauthorized access/use), disclosure recipients, supporting materials, actions taken to mitigate or stop the Security Incident, and similar details.

- d) Contractor's investigation must be undertaken expeditiously and completed to the extent that a determination of whether a Breach has occurred can be reasonably made, including the identification of the victims or likely victims, within a reasonable timeframe as mutually agreed upon with the FSSA Privacy & Security Office, from the date of discovery of the Security Incident. Contractor shall provide details of its investigation to the FSSA Privacy & Security Office on an ongoing basis until the investigation is complete.
- e) Contractor and the FSSA Privacy & Security Office will collaborate on the results of Contractor's investigation; the determination as to whether a Breach has occurred rests solely with the FSSA Privacy & Security Office.
- f) If it is determined by the FSSA Privacy & Security Office that a Breach has occurred:
 - I. Contractor agrees that it shall be responsible for, including all costs with respect to, fulfilling the State's and/or Contractor's obligations for notice to all of the known and suspected victims of the Breach. Such notice shall comply with the HIPAA Breach Rule notification requirements and/or applicable notification requirements under State law or regulation.
 - II. Contractor further agrees that such notification will be made under its name, unless otherwise specified by the FSSA Privacy & Security Office. Contractor will coordinate its Breach notification efforts with the FSSA Privacy & Security Office; the FSSA Privacy & Security Office will approve Contractor's Breach notification procedures and plans, including the format and content of the notice(s) prior to such notification being made.
 - III. Contractor accepts full responsibility for the Breach and any resulting losses or damages incurred by the State or any victim of the Breach.
 - IV. Contractor will undertake all commercially reasonable efforts necessary to mitigate any deleterious effects of the Breach for the known and suspected victims of the Breach.
 - V. The State, through the FSSA Privacy & Security Office, will make the appropriate notifications to HHS and/or the applicable Federal or State agencies with respect to the Breach, unless the Contractor is directed to do so by the FSSA Privacy & Security Office.
- g) Contractor will undertake commercially reasonable corrective actions to eliminate or minimize to the greatest degree possible the opportunity for an identified Security Incident to reoccur and provide the FSSA Privacy & Security Office with its plans, status updates, and written certification of completion regarding such corrective actions.
- 4) If Contractor observes or otherwise becomes aware of a Security Incident or suspected Security Incident outside of Contractor's scope of responsibilities under this Contract (for example, affecting PII not in Contractor's safekeeping), Contractor agrees to promptly report

- such Security Incidents to the FSSA Privacy & Security Office and cooperate with the FSSA Privacy & Security Office's investigation of the Security Incident.
- J. Subcontractors. Contractor agrees that in accordance with the HIPAA Privacy Rule, CMPPA, IEA, and 45 CFR §155.260 any subcontractors engaged by Contractor (in compliance with this Contract) that will create, receive, maintain, use or transmit State PII on Contractor's behalf will contractually agree to the same restrictions, conditions, and requirements that apply to Contractor with respect to such PII.
 - K. Access by Individuals to their PHI/PII. Contractor acknowledges that in accordance with the HIPAA Privacy Rule and 470 IAC 1-3-1, *et seq*, individuals for whom Contractor has direct possession of their PHI/PII on the State's behalf have the right to inspect and amend their PHI/PII, and have the right for an accounting of uses and disclosures of such PHI/PII, except as otherwise provided therein. Contractor shall provide such right of inspection, amendment, and accounting of disclosures to such individuals upon reasonable request by the State (or by such individuals if the State directly refers such individuals to Contractor). In situations in which Contractor does not have direct possession of such PHI/PII, then the State shall be responsible for such inspection, amendment, and accounting of disclosures rights by individuals.
 - L. Access to Records. Contractor shall make available to HHS and/or the State and/or other Federal agencies so authorized by law Contractor's internal practices, books, and records relating to the use and disclosure of PHI and PII provided to Contractor by the State or created, received, maintained, used, or transmitted by Contractor on the State's behalf. Contractor shall promptly inform the State by giving notice to the FSSA Privacy & Security Office of any request by HHS (or its designee), other State agencies, or other Federal agencies for such internal practices, books, and/or records and shall provide the State with copies of any materials or other information made available to such agencies.
 - M. Return of Protected Health Information. Upon request by the State or upon termination of this Contract, Contractor will, at the State's sole option, either return or destroy all copies of any PHI or PII provided to Contractor by the State, including PHI or PII created, received, maintained, used or transmitted by Contractor on the State's behalf and Contractor shall warrant in writing that it has returned or destroyed such PHI and/or PII. Contractor agrees that such information is confidential and protected information and promises and assures that any such information, regardless of form, disclosed to Contractor for the

The Contractor and the State will comply with the applicable requirements of 42 CFR Part 2 and any other applicable Federal or state law or regulatory requirement concerning such information. The Contractor will report any unauthorized disclosures of such information in compliance with this Section.

- Q. **Confidentiality of State Information.** The Contractor understands and agrees that data, materials, and information disclosed to the Contractor may contain confidential and protected information. The Contractor covenants that data, material and information gathered, based upon or disclosed to the Contractor for the purpose of this Contract, will not be disclosed to or discussed with third parties without the prior written consent of the State.

The parties acknowledge that the services to be performed by Contractor for the State under this contract may require or allow access to data, materials, and information containing Social Security numbers maintained by the State in its computer system or other records. In addition to the covenant made above in this Section and pursuant to 10 IAC 5-3-1(4), the Contractor and the State agree to comply with the provisions of IC 4-1-10 and IC 4-1-11. If any Social Security number(s) is/are disclosed by Contractor, Contractor agrees to pay the cost of the notice of disclosure of a breach of the security of the system in addition to any other claims and expenses for which it is liable under the terms of this contract. The Contractor shall report any unauthorized disclosures of Social Security numbers to the FSSA Privacy & Security Office within one (1) business day of the date of discovery in accordance with this Section.

- R. Contractor will indemnify and hold the State harmless from any loss, damage, costs, expense, judgment, sanction or liability, including, but not limited to, attorneys' fees and costs, that the State incurs or is subject to, as a result of a breach of this Section by the Contractor or any subcontractor, agent or person under Contractor's control. In the event a claim is made against the State for any such claim, cause of action, liability, damage, cost or expense, State may, at its sole option: (i) tender the defense to Contractor, who shall provide qualified and competent counsel to represent the State interest at Contractor's expense; or (ii) undertake its own defense, utilizing such professionals as it deems reasonably necessary, holding Contractor responsible for all reasonable costs thereof. In any event, State shall have the sole right to control and approve any settlement or other compromise of any claim brought against it that is covered by this Section.
- S. Contractor shall adhere to all relevant FSSA Security Policies for any related activities provided to FSSA under this contract. Contractor is responsible for verifying that any subcontractors they engage will also comply with these policies. Any exceptions to these policies require written approval from the FSSA Privacy & Security Office.
- T. **Access to FSSA and/or State Information Systems.**
- a. "FSSA and/or State Information Systems" means all computing hardware and related components, all computer software and related components, all network devices and related functions, and data owned by, licensed to, in the legal custody of, and/or operated by FSSA and/or the State.

- a) Contractor agrees that it and all members of its workforce (as used here, “workforce” means employees, volunteers, interns, trainees, (sub) contractors, and other persons whose conduct is under the control of Contractor) performing such services will comply with all FSSA and State Privacy and Security Policies and Procedures.
- b) All members of Contractor’s workforce who are or will be granted access to FSSA and/or State Information Systems will undertake and certify completion of all FSSA and State mandated privacy and security training following a schedule reasonably required by FSSA and the State (e.g., upon new hire/assignment and annually thereafter).
- c) All members of Contractor’s workforce who are or will be granted access to FSSA and/or State Information systems will agree in writing or through electronic confirmation to the rules of behavior regarding access to and use of FSSA and/or State information systems; such rules of behavior include, but are not limited to the State Information Resource Use Agreement (“IRUA”).
- d) Such training and rules of behavior agreement will be coordinated with Contractor by the FSSA Privacy and Security Office and the Indiana Office of Technology (“IOT”).
- e) Any members of Contractor’s workforce who fail to complete the required training as described above within the scheduled timeframes or who fail to agree to the rules of behavior will not be permitted to access FSSA and/or State information systems.
- f) Access to and usage of FSSA and/or State Information Systems is controlled through role-based access privileges and follows the principle of least privilege, meaning users are granted access to/usage of only the minimum amount of information and system functions necessary to perform their role or job assignment. As such, FSSA or its designee will provide Contractor with a list of roles it deems necessary for Contractor to perform the services; Contractor will identify each individual workforce member who requires access to/usage of FSSA and/or State Information Systems and the role to be assigned to each individual. Contractor will certify in writing that the role assigned to each individual workforce member is necessary and appropriate for the individual to perform their job assignment with respect to the performance of Contractor’s services under this Contract.
- g) FSSA will authorize and grant Contractor workforce member access privileges based on the requested and certified role in a timely manner; FSSA and IOT reserve the right to withdraw such authorization for any workforce member, with or without cause, at any time and without prior notice.
- h) Contractor agrees to notify the FSSA Privacy and Security Office or its designee within twenty-four (24) hours of any workforce member terminations or changes in workforce member assignment that would affect their need for access or role.
- i) Contractor agrees that it is solely responsible for the actions, including errors and omissions, intentional misconduct, or malfeasance of its workforce members with respect to their access to and usage of FSSA and/or State Information Systems.

- j) The FSSA Privacy and Security Office (or its designee) and Contractor will collaborate on the methods and means to identify workforce members requiring access, certification, changes, and other communications under this subsection.

U. 45 CFR §155.260 Compliance.

- a. The FSSA Division of Family Resources (“DFR”) participates in a PII data exchange with the Centers for Medicare and Medicaid services (“CMS”) mandated under the Affordable Care Act (“ACA”, Public Law 111-148). The receipt of PII data from CMS through this data exchange (“ACA PII”) is in support of the determination of eligibility for healthcare coverage for individuals, which is a primary function of DFR. DFR is designated as the Administering Entity under a computer matching agreement with CMS and, per the terms of that agreement, is obligated to comply with the provisions of 45 CFR §155.260 and §155.280 regarding the privacy and security of ACA PII and that such compliance will be achieved through the application of the privacy and security standards and obligations established in the Minimum Acceptable Risk Standards for Exchanges (“MARS-E”) promulgated by CMS.
- b. 45 CFR §155.260(b)(2)(v) requires DFR to bind any downstream entities with which ACA PII is shared to same privacy and security standards and obligations that DFR is obligated to comply with, subject to the provisions under 45 CFR §155.260(b)(3) and in compliance with the monitoring provisions under 45 CFR §155.280.
- c. In this regard (pursuant to the immediately preceding):
 - i. Contractor understands that in the performance of its services under this Contract Contractor will be given access to and usage of ACA PII to the extent necessary to perform such services; such access and usage of ACA PII is hereby authorized by the State.
 - ii. Contractor agrees that such ACA PII is subject to the same provisions of this Section as apply to PII and PHI, including but not limited to subsection H Improper Disclosure, Security Incident, and Breach Notification.
 - iii. Contractor further agrees that it will employ privacy and security standards over such ACA PII that are consistent with and being at least as protective as the privacy and security standards employed by DFR as described in paragraph 1) above taking into consideration: (i) the environment in which the Contractor is operating; (ii) whether specific standards are relevant and applicable to the Contractor’s duties and activities in the performance of the services; and, (iii) existing legal requirements to which Contractor is bound in relation to its administrative, technical, and operational controls and practices, including but not limited to, its existing data handling and information technology processes and protocols.
 - iv. Contractor additionally agrees that the privacy and security standards it employs over ACA PII will be consistent with the principles established in 45 CFR §155.260(a)(3) and that Contractor will bind any subcontractors with authorized access to ACA PII to the

same or at least as protective as the privacy and security standards Contractor employs over ACA PII.

- v. Contractor agrees that it will comply with the applicable provisions under 45 CFR §155.260 as a non-exchange entity.

V. Independent assessment. If and to the extent that Contractor creates, receives, maintains, uses, and/or transmits PII, as authorized under this Contract, employing information systems owned by, licensed to, in the legal custody of, and/or operated by Contractor (excluding and separate from FSSA and/or State Information Systems), in order to assure Contractor's appropriate application of its privacy and security standards, Contractor will:

- i. Engage a qualified, independent third-party to assess Contractor's privacy and security standards and controls and have such assessment performed on an annual basis with the first such assessment being performed within six (6) months of execution of this Contract. Contractor is solely responsible for ensuring each such assessment is reasonable in scope and depth with respect to Contractor's environment.
- ii. Contractor will share the results of each such assessment (e.g., the assessor's report) with the FSSA Privacy & Security Office (or designee), including Contractor's corrective action plan to resolve or mitigate any privacy and security deficiencies identified by the third-party assessor; the State will hold such results in the strictest confidence. The State will review the assessment results, including the corrective action plan, solely for the purpose of gauging the reasonable sufficiency of the scope and depth of the assessment and the reasonable timeliness and approach of the corrective action plan. The State reserves the right to request of Contractor reasonable enhancements to the scope and depth of each assessment and/or each resulting corrective action plan and any disputes between the State and Contractor regarding such requests will be handled in accordance with the Disputes section of the Contract.
- iii. Contractor agrees that it will resolve or reasonably mitigate such deficiencies within a reasonable period of time, as identified in the corrective action plan, but by no later than the next annual third-party assessment; provided however that any deficiencies deemed high risk by the third-party assessor will be mitigated by Contractor within ninety (90) calendar days from date of discovery and any deficiencies deemed moderate or medium risk by the third-party assessor will be mitigated by Contractor within one-hundred eighty (180) calendar days from the date of discovery; as used here mitigation means the deficiency is either resolved or compensating controls are applied that reduce the designated risk level. The State expects that the third-party assessor will confirm the resolution of the identified deficiencies during the next following assessment.
- iv. Failure by Contractor to timely and reasonably resolve or mitigate privacy and security deficiencies identified by the third-party assessor and in accordance with the corrective action plan will be considered a material breach of this Contract.

Information Technology Security

- a. **General Security Statement:** You will implement appropriate administrative, technical, and physical safeguards to ensure the security, privacy, confidentiality, integrity, and availability of Indiana Bureau of Motor Vehicles or the Bureau of Motor Vehicles Commission information, collectively referred to as BMV/C. Whether BMV/C information is stored on, processed on, or transmitted by BMV/C systems, your systems, or third-party provider systems, you (and your third party providers if applicable) will use information security controls to: (1) protect any and all BMV/C information and BMV/C systems you have access to while performing your obligations under any agreement; and (2) protect your systems and your third party provider systems on which BMV/C information is stored, processed, or transmitted.
- b. **Access to BMV Systems:** Contract staff and/or subcontractors may not be allowed access to BMV/C data systems without prior individual approval from BMV/C, which may include but is not limited to periodic background checks. BMV/C must be notified immediately each time an approved individual leaves employment or the subcontract for an approved subcontractor is cancelled or when these individuals are reassigned to duties that do not involve access to BMV/C data systems. No agent of a contractor will be permitted access to Social Security Administration (SSA) data until he/she has completed all required forms and executed the required agreements for such access.
 - a. Any contractor, and their agents/users, who receives access to SSA data through the Information Exchange Agreement (Agreement) between the BMV/C and SSA through the Social Security On Line Verification (SSOLV) process agrees to be bound by the terms and conditions concerning the access, use or disclosure of SSA data under the Agreement, including the penalties associated with loss or disclosure.
 - b. Your access to any BMV/C information and/or BMV/C systems, including but not limited to any BMV/C customer and/or employee information, is subject to your continuing compliance with this Policy. We may immediately, automatically, and unconditionally revoke your access, and all links and interfaces, to BMV/C information and/or BMV/C systems without liability for any reason or no reason.
- c. **Minimum Information Security Controls:** You must implement and maintain the minimum information security controls set forth in the State of Indiana IOT's Information Security Framework (ISF) and the BMV Information Security Policy and Standards.
 - a. You must reach out to the IOT security team at security@iot.in.gov to request an NDA and subsequent ISF documentation. If implementation of an IOT policy or standard is not possible due to technology differences, naming standards, or the like, you must provide a methodology that meets or exceeds the IOTs minimum standard of security, or request an exception by bmvsecurityteam@bmv.in.gov.
 - b. You must reach out to the BMV security team at bmvsecurityteam@bmv.in.gov to request the BMV Security Policy.
- d. **Audit of Security Controls:** If we request, you will provide, at your expense, a written description, certified in writing by your authorized representative, of compliance with this Policy (including without limitation how you implement each security control).
 - a. In addition, if we request, you will allow us, IOT, and \ or our independent third party, to audit your compliance with this Policy (including without limitation performing penetration testing and vulnerability scans). You will work with us, at your own expense, to remedy any deficiencies the audit identifies to our reasonable satisfaction.
 - b. Further, BMV/C may require you to obtain a formal audit of your security controls conducted by an unaffiliated third party. If this is required, you must provide BMV/C with the written audit results. Examples of acceptable audits include the following:
